Practical workshop for teachers on the basic principles of inclusion.

Every day, teachers are faced with the challenges associated with the inclusion of children with specific or special needs in the classroom. Despite research showing the financial, educational and societal benefits of inclusion, the practical reality of inclusion is a daunting task!

Eduplex Training Institute, is hosting a practical workshop which aims to equip teachers with basic knowledge and skills to successfully include learners with different educational needs within a mainstream classroom environment.

Participants will need to complete online interactive lessons and multiple choice questionnaires prior to attending a one day practical workshop. During the practical workshop, theoretical aspects presented in the online interactive lessons will be reviewed and teachers will engage in practical discussions on how to adapt classroom environments and daily classroom activities.

This workshop is specifically designed for **Grade 0000 — Grade 7** teachers.

Workshop fees include:

- Access to online training (excluding data costs)
- One day practical workshop
- Tea, coffee and lunch
- Training material and hardcopy book
(Valued at R795)
